Maria's left a couple hours ago & Peter's out today...not sure who else is around or if anyone in OW is down in the EOC.

Hi Alisha,

Thanks for your time just now! I'm a producer for World News with Diane Sawyer working on a story airing tonight. Hoping you can get us statistics that answer these questions:

In light of the current chemical leak in WV, how vulnerable is our nation's water supply to something like this happening elsewhere? How many chemical plants border drinking water sources nationwide?

If numbers for these questions aren't available, we'd be interested in any relevant statistics you are able to provide.

Thank you,

Matt
